Our People-First Culture

At Merit, we have continuously placed care and concern for our people at the core of everything we do. This has been built into our processes, practices and programs enabling us to establish a culture of respect and trust.

Financial Security

Medical Insurance coverage for employees and their families

Parental Insurance for employees' Parents/ Parents-In-Law

Accident Insurance for employees

In keeping with our philosophy of 'Caring,' we provide medical insurance coverage for all our employees, as we know how important financial security is for everyone.

Along with competitive compensation that aligns with industry benchmarks, we provide medical insurance coverage not just to our employees but also to their families. The medical insurance covers maternity costs as well.

Our Parental Insurance scheme, a game-changing initiative for all, allows our employees' parents or parents-in-law to stay insured as well.

We also provide Accident Insurance for all our employees.

We conduct educational sessions periodically where financial experts guide us with the best solutions to build a secure future.

Company Transport

Commuting daily on public transport is expensive, time consuming and can be a challenge at times.

We have got our people covered!

Merit's cab facility for pick-up and drop is a highly subsidized service. Our cab app comes with a SOS feature and enables employees to verify their rides, share their location with their family and friends. It's safe and secure!

Work-Life Integration

- Vacation & Time Off: Our leave plans allow you to unplug & rest.
- Enhanced Paternity & Maternity Leaves
- Program for new moms & dads

Keeping our employees' well-being in mind, Merit offers flexibility through the hybrid model.

We provide 36 days of leave to our employees, over and above public holidays. We encourage our people to utilize the leaves to spend quality time with their families.

New mothers are provided the statutory maternity leave while new fathers are provided paternity leave.

We encourage new parents to spend more time with their newborn. Our 'Baby Steps' program helps them by offering extended work from home privileges, post the maternity/ paternity leave. We provide new parents flexible working hours with reduced targets during the period of this program, with no reduction in their pay levels.

Learning

Learning at Merit has been a primary focus area as we have consistently championed the theme of 'Programs For All.'

We have customized learning programs for employees at all levels in the organization based on their roles. We have programs for:

- Individual Contributors
- First time Managers
- Senior Managers and Leaders

Merit has a Learning Management System, to build a self-driven learning culture where employees drive their learning and growth. There is no upper limit to the number of courses an employee can avail of, and it is completely paid for by Merit.

Employees are encouraged to explore professional and personal interests, such as music lessons, learning a new language, learning photography or health and fitness related topics.

Career Growth

Merit's Career Development Framework clearly defines the various opportunities available for career progression and offers a complete guide on career mapping for employees for all positions and divisions within the organization.

The framework has clear guidelines, including roles and responsibilities, key skills & competencies, and tenure, and suggested assessments to take to prepare for the next level of growth.

Employees are offered vertical and horizontal growth opportunities.

Mental Health & Wellness

Merit has always championed Mental Health & Wellness of its employees.

Our Employee Assistance Program is a free counseling service, available in 8+ languages and completely confidential, provided not just for our employees but also for their family members to seek help anytime. All discussions remain confidential between the employee or their family member seeking help and the attending counsellor.

Additionally, we ask our managers to take up online courses on mental health, to help them understand situations their team members maybe going through, as they are the first point of contact for employees.

Safety & Wellbeing

We have a zero-tolerance culture towards harassment of any nature.

We implement the PoSH policy very strongly and it is gender-neutral, which promotes the spirit of inclusivity.

‘Panic Button’, an alert system for employees to reach out for help when in distress. It can be used for various reasons, including harassment, assault, or any other concern that should require a quick response.

Employees can press the Panic Button on our Intranet portal at work or at home.

Fair Recognition

Merit recognizes and appreciates its employees across locations.

The quarterly recognition programs helps us celebrate the small and big wins across all levels.

In addition to that, Merit's annual rewards and recognition is another way to express gratitude for the work and dedication exhibited.

Our people are our pride, and we celebrate them in every possible way!
